## Civil Engineering Position

**Cooper Engineering Company, Inc.**, an employee-owned civil engineering firm in Rice Lake, WI, is currently accepting applications for a full-time civil engineering position with a structural emphasis. Rice Lake is a vibrant rural community located in the heart of Wisconsin's Northwoods, offering four seasons of woods and water opportunities to outdoor enthusiasts, a growing regional medical hub, two public colleges, and surprising opportunities in the arts.

Successful applicants will join our experienced team members completing engineering design and construction projects primarily throughout northwestern Wisconsin and occasionally in nearby states. Recent and pending graduates in civil engineering as well as experienced engineers are encouraged to apply for the engineering position.

Qualified candidates will demonstrate competent technical skills, knowledge of civil engineering concepts, principles, and practices, efficiency in AutoCAD, strong communication and writing skills, interest in structural engineering, a strong sense of integrity and goal setting, a cooperative attitude, and an on-going desire to learn and help clients.

Education requirements include a B.S. degree in civil engineering, knowledge of Microsoft Office and computer-assisted engineering and design software, knowledge of producing quality construction plans, and knowledge of applicable state regulations.

In compliance with federal law, all persons hired will be required to verify identity and eligibility to work in the United States and to complete the required employment eligibility verification form upon hire.

Candidate must have a valid driver's license. A professional engineering license is not required for the applicant, but the candidate will be expected to pursue registration as a professional engineer. Project management and/or construction engineering experience is desired but not necessary.

Cooper Engineering offers competitive compensation, vacation, sick time, insurance benefits, 401(k), ESOP program, and a professional work environment. Wages will be commensurate with experience and skills.

Qualified applicants should apply by sending a letter of interest and resume. Applicants may also call Kelley Draeger of Cooper Engineering at (715) 234-7008 to discuss the opportunities. This posting does not have a scheduled deadline but will expire when the position is filled. Prompt submittal of application materials is encouraged.

Cooper Engineering is an Equal Opportunity Employer.
